every one a technical-performance binding
× Impact-energy limit for flight over people
× Sustained exposure of an assembly
× Observability of airspace conditions
× Withdrawal criteria for airspace access
× Ground-risk-aware termination
× Spatial limits on automatic behaviour
× Pre-flight geofence validation

every one a purpose or data binding
● Purpose ↔ sensing capability match
● Re-authorisation on purpose change
● Purpose, retention and access for imaging
● Custody before any derived copy
