(a)
Binding runs along paths, not within single provisions
Single-provision reading misses 11 of the 58
Determinate binding
No path found
adopted bound
(+1 at hop 5)
Determinate bindings
Constraints with no path
Maximum path length (hops through cross-references)
(b)
Audited corpus: 14 instruments, 5,190 nodes, 7,873 edges
all texts hashed (SHA-256) and published consolidated versions are authoritative

Who answers · whether the forum can read the evidence · when · whether the public may raise it — none are bound
Authorising provisions (filled = determinate binding)
(d)
The derivation reproduces the hand-made control set
63 derived constraints · 60 map to a prior control · 3 are new
Prior controls reproduced
18
20
22
all 22 prior controls
Unsafe control actions (STPA step 3)
+ Loss scenarios (STPA step 4)
