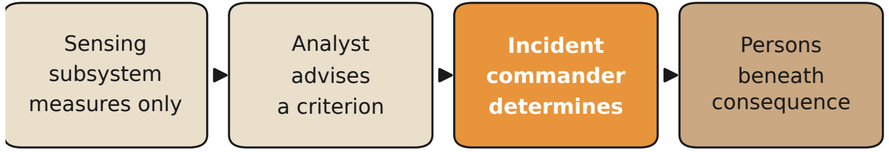
(a)

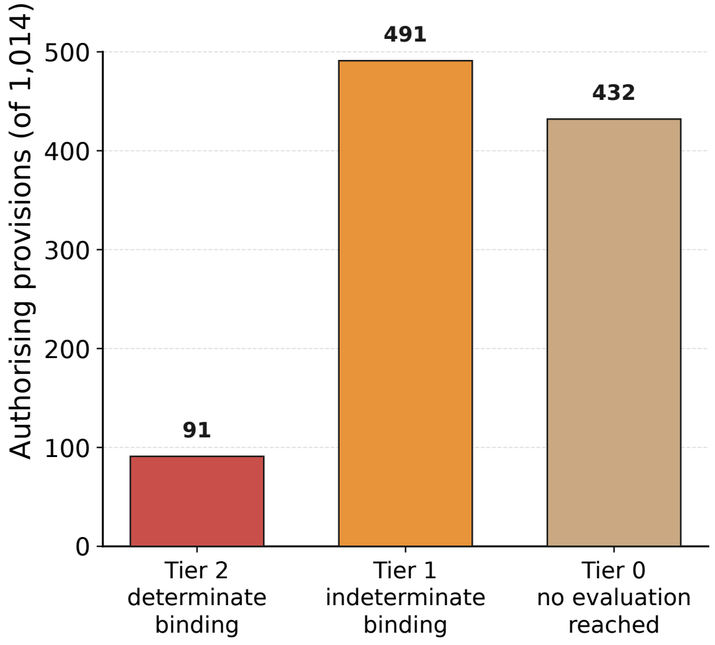


The determination is a human act taken on an advised criterion. The sensing subsystem never classifies.

What this paper measures: does any provision make that authorisation depend on a named evaluation of the measurement it rests on?

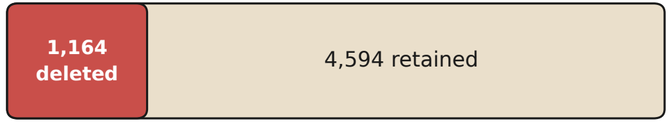
(b)

The determinate operator must sit on the authorising provision itself; it is not accumulated along the path.



(c)

Provision graph: 5,758 nodes



Deleted by the police and public-aircraft carve-out

- Reg. (EU) 2018/1139 Art. 2(3)(a) and the acts resting on it
- 14 CFR Part 107 Subparts C and D, per AC 00-1.1B

Mission, lexicons and rule are held constant, so the two routes are compared under one rule.

What is left in force on the police route: 306 aviation nodes holding 34 authorising provisions, among which 1 binds.
